## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 1-6, 8, and 10-20 allowed, renumbered 1-18 respectively.

The following is an examiner's statement of reasons for allowance: Regarding claims 1 and 11, the prior art of record does not teach, alone or in combination, determining under a two tiered method if a detected signal is either a continuous tone over a first time period or is a period of silence over a second time period, the first time period being different from the second time period; repeating the steps of placing a telephone call to a number of an answering machine, playing the recorded message after a third time period following a first time period and playing the recorded message after a fourth time period following the second time period; and continuing to play the recorded message if there are either no echo cancellation signals or there are at least three echo break signals, wherein the recorded message is delivered in a nontruncated form.

Regarding claim 20, the prior art of record, does not teach, inter alia, means for repeating said two tier means, said first tier means and said second tier means when there are less than three echo cancellation break signals.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
